<Highlight 1>: Reforestation planning workshop with four village committees

Please add a summary/explanation

In August, our Strategic Coordinator Misbahou Mohamed organized a workshop with four village natural resource management committees to evaluate our reforestation initiatives to-date, and plan out the next year. This included mapping out expanded areas for reforestation in priority water catchment areas. The different committees learnt from each other about what had been working in the different villages, and left motivated to apply the lessons to improve their reforestation efforts over the next year.
