

GEF-Satoyama Subgrantee Highlights Report

Organization Name: Fauna & Flora International

Country: Myanmar

Reporting Quarter: FY17 Q4 (April to June 2017)

Person submitting Report: Zau Lunn

<Highlight 1>: Find out important fish habitats along Mali Hka River and May Hka River to establish more FCZs in collaboration with the local communities for the sustainability of fisheries resources. (April-May 2017)
According to the requirement of fish conservation for the sustainability of livelihood of the local communities, more important fish habitats were surveyed along the tributaries those flows into Mali Hka River and main channel of the May Hka River together with the local communities.

<Highlight 2>: Project monitoring trip to the project villages in the Hponganrazi Wildlife Sanctuary together with GEF representative and District Director of the Department of Fisheries and finalize small grant provision to the project villages. (May 2017)
Organized project monitoring trip to the project villages in the Hponganrazi Wildlife Sanctuary and finalized small grant provision. Discussed small grant provision with the communities based on their proposal and justified and finalized possible provision. Some communities demanded tractors to improve their agriculture and some requested new marketable plants to increase income for their village.

<Highlight 3>: Monitor livelihood provision pilot projects in Indawgyi Lake. (May-June 2017)
Monitor pig raising activities in the project village.
