

## GEF-Satoyama Subgrantee Highlights Report

Organization Name:	Fauna & Flora International
Country:	Myanmar
Reporting Quarter:	FY18 Q4 (April to June 2018)
Person submitting Report:	Zau Lunn

< Highlight 1>: Fish surveys and consultation meetings with 5 communities (Mali Rein, Htonla, Kasan Khu, Ghat Htu, Pannandin villages) for establishment of new FCZs along May Hka and Mali Hka Rivers in the Putao District.

Fish surveys were conducted together with local communities and organized consultation meetings using maps and prioritized important areas for establishment of Fish Conservation Zones with 5 communities those are situated in and close to the Hponganrazi Wildlife Sanctuary and Hkakaborazi Natinal Park in the Putao District in the upper Ayeyarwaddy Region. 2 communities (Mali Rein and Pannandin villages) were agreed and signed for final establishment of FCZ. 3 communities are agreed but still discussing for final agreements on dos and don'ts in their FCZs.

<Highlight 2>: Monitoring small grant activities and provision of new commodity seedlings for seasonal vegetable plantation for home gardening as small grants to the project villages.

Monitor the small grant activities in participation with the wildlife sanctuary and township agriculture department staffs in the project villages in Putao District and provide seasonal vegetable seedlings for home gardening in the project villages in Putao District.

< Highlight 3>: Consultation meetings in 3 communities in Lenyar proposed National Park for FCZ establishment.

Consultation meetings were conducted in 3 communities using maps and find out priority areas for establishment of FCZs in collaboration with the Township Department of Fisheries officer. To reduce conflict among the communities, draft FCZ vinyl including contact phone numbers of Department of Fisheries and FFI to get any complaints from the communities were erected along the proposed FCZ areas. Fisheries awareness vinyl were also distributed to the communities.

< Highlight 4>: Fish landing monitoring together with the Department of Fisheries in Indawgyi.

Fish landing monitoring was done together with the Department of Fisheries to understand the effectiveness of FCZ establishment in Indawgyi. This monitoring will be done for 1 year.

< Highlight 5>: FCZ establishment documentary was released.

The FCZ documentary was released among the public through face book and discussing to broadcast in the national and regional medias. The documentary is using in the awareness raising activities in the FCZ project areas.
